## THE HELPFUL ANIMAL IN FAIRY TALES

**Antonia Boll**  
Jungian Analyst

Fairy tales, with their focus on life's challenges, can be read as vital instruction manuals, in allegorical form, when we are compelled to look beyond conventional solutions and seek the guidance of a source beyond the everyday. Talking animals, witches, giants & dwarves can all become catalysts in our journey towards wholeness, re-connecting us to our instinctual nature and the deeper purpose of our lives. M L von Franz says: ***If any animal gives you advice and you don't follow it, then you are finished.*** We will ponder that longing within us for a closer connection to the natural world and to the great web of being of which we are a part. Antonia's talk will explore those moments in story, at the interface between conscious and unconscious, when we can listen through to the voice of nature.

**Antonia Boll** is a member of the Association of Jungian Analysts in London where she contributes to its training programme. She also maintains a close connection to the Re-Vision Centre for Transpersonal & Integrative Therapy, where she taught for 20 years and is honoured as their first Elder. She was a visiting supervisor on the IAAP Router training in Kiev, Ukraine and is in private practice in London.

**Registration closes 19<sup>th</sup> April @ 6.00pm - Irish time**
